IP & SIP Intercom systems – Talk, See & Control via Network.

TOA Electronics

TOA IP Intercom Systems allow secure communications (encrypted) between various people, either in the same building, in another city or even in another country or on another continent but on a system independent from a public telephone system. This means that it is impossible to eavesdrop on communications and is therefore ideal for the banking, military and corporate markets sectors.

It is also possible to integrate the TOA N-8000 IP Intercom System with CCTV Systems, Public Address Systems, Integrated Voice Evacuation Systems, as well as with SIP Telephone Systems or SIP Intercom Systems by utilising the SIP Gateway.

The TOA SIP Intercom System also allows for Video as well as Speech Door-stations together with a master control station which incorporates a video monitor and is able to trigger (open) door locks or booms for easy access control.

Major applications for Intercom Systems include Hospitals, Prisons, Banks, Airports, Railway Stations, Apartments, Secure Housing Estates, Corporates, Shopping Malls, Factories and Military Installations.

In addition to the above TOA also manufactures IP based PA Systems, as well as Powered Horn Speakers (for integration with CCTV Systems) which allow for the controller in the control room to communicate with those that he / she is viewing on the CCTV system via the monitors.

Other products by TOA include Public Address (PA) equipment, Integrated Voice Alarm (Evacuation) Systems, Intercom Systems, Professional Sound Systems and a variety of other products including Megaphones (TOA invented the megaphone) and Mobile PA Systems.

Web Browser
Integrated internet browser to access worldwide resources.

NovoConnect
Allows to show your screen wirelessly on a larger screen.

Infrared Touch
4k UHD 20 point Touch screen and 10 writing

Discover Effortless Video Conferencing (Web-Based) Solutions

AVer

AVer has become a successful creator of smart solutions by satisfying clients through technological innovation and excellent quality. To date, AVer products have received numerous international awards, such as the iF Design Award and Red Dot Award from Germany, the CES Innovation Award from the U.S., the Worlddidac Award from Switzerland, the Taiwan Excellence Award, and the Good Design Award from Japan.

YAMAHA UC / Revolabs

Yamaha UC / Revolabs spent decades engineering audio and video conferencing solutions to streamline collaboration and boost productivity wherever people need to speak openly, share freely and create exceptional things. Yamaha's considered approach to building enterprise-grade microphone systems, conference phones and video sound bars ensures exceptional audio quality, ease of connectivity and flexibility for meetings across the table or across the globe. Wired and wireless options complement today's nuanced and hectic business systems.

VDO360

As the Video Conferencing industry has evolved from the time when a codec required an engineer to just keep it running, to the ubiquitous video applications of today, VDO360 has been the engine that makes those solutions work.

User Friendly Digital Signage Without Re-Occuring Costs

The World #1 AV Racks

Middle Atlantic are world leading manufactures of state of the art racks with attention to details from their built-in cable management on their racks and enclosures to pre-installed washers on their rack screws, they look at all aspects of an installation to find ways to save time and simplify the job.

A Wide Array Of Projection Screens, Each With A Specific Option Of Projection Surfaces

Screenint

Italian company specialized in manufacturing tailored projection screens and motorized lifts as well as fixed accessories for projectors.

Know-how and constant development in R&D assure maximum satisfaction of our customers, who have to rapidly face-up the challenges of the audio visual market.

Privacy Systems – Sound Masking

Keep Private Space Private

Often overlooked in conference room design and construction is the potential for private conversations to travel easily under, over, or even through walls and doors, so someone with a lack of speech privacy is overhearing lots of conversations they shouldn't and it is a concern that people conversations are being overheard by others.

Who Needs Sound Masking?

Corporate: Open Office, Private Office & Outside of Conference Rooms

Healthcare: Hospitals, Clinic Offices & Counseling Areas

Co-share Spaces

Call Centers

Education: Classrooms & Testing Centers

Government & Law: Secured Facilities, Courtrooms, Law offices

And more...
